1 Accessory

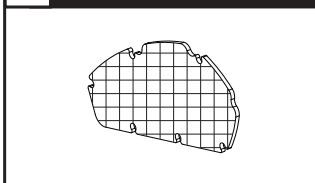

1 Individual upper and lower cover of filter X1

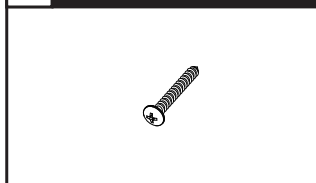

2 High-density sponge X1

3 Low-density sponge X1

4 M5x35x Screw X6

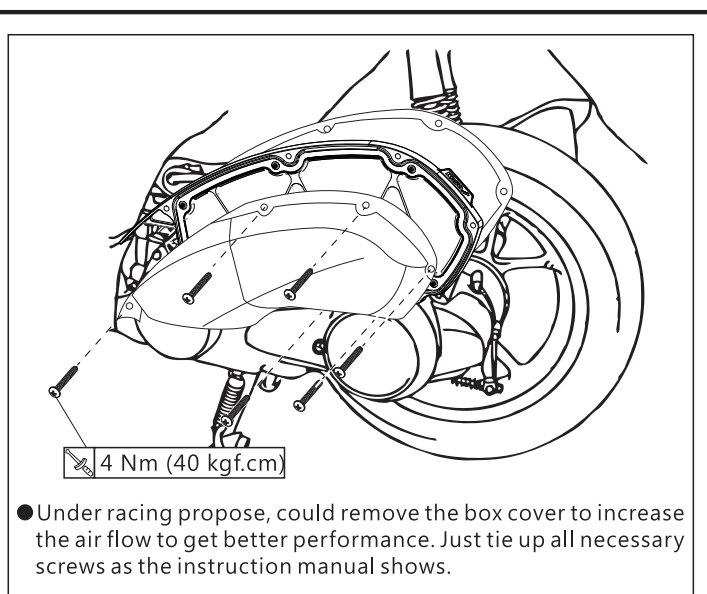

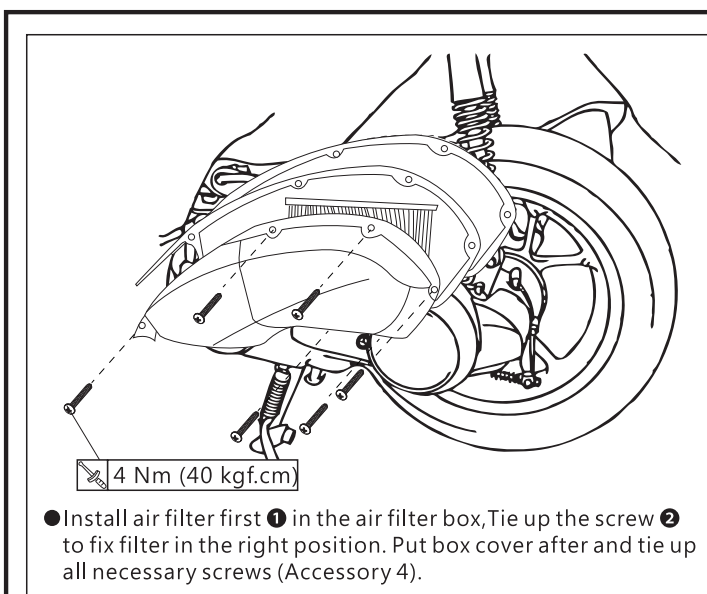

NOTE 1 1. The camshaft component was already installed on the body when purchased.

NOTE 1 2. Please contact the local distributor if the items you open are not the same, with the above-listed one.

⚡ Denotes the tightening torque value.

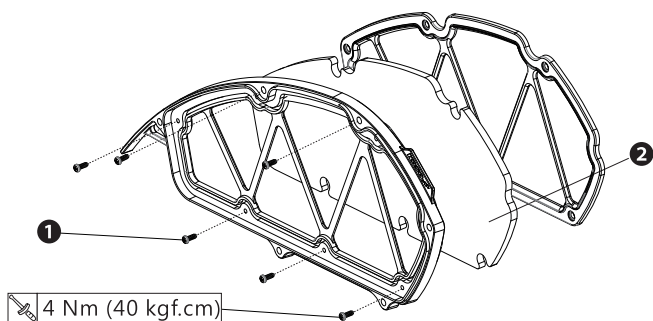

2 You may opt to install the outer cover

CAUTION! If bike falls down or have found mass fuel leaking, make sure you clean up the fuel sucked by sponge (Warning: leaking fuel may caused fire during engine start).

NOTE Some of these items may not sell in particular area, for more information, please contact with our local dealer.

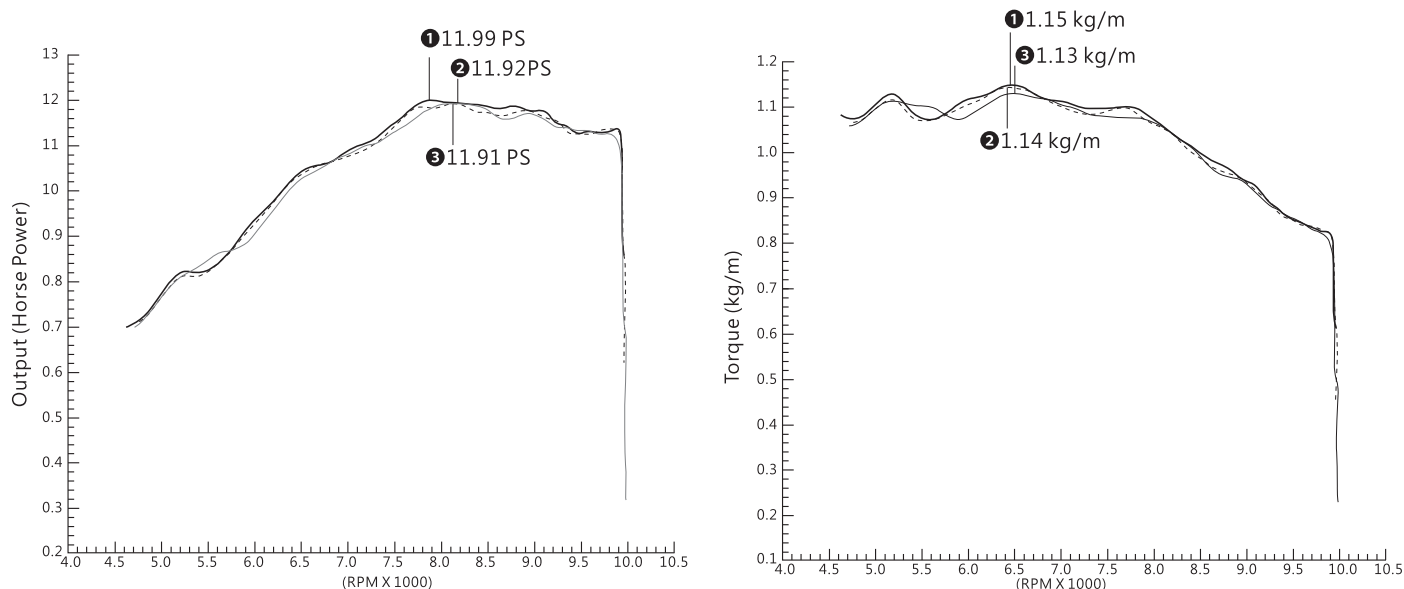

3 Replace filter cartridge

- To replace filter cartridge, remove ① screws (M4x8 Screw) and ② replace sponge (two sponges with different densities are available). After replacing the sponge, make sure you tie up all necessary screws.

CAUTION! To avoid air leaking or unseal appropriately, make sure install sponge in correct place.
