⚠CAUTION! Some procedures must be followed to avoid damages to the vehicle.

🔧 Denotes the tightening torque value.

1 ACCESSORY

1 RADIATOR x1

NOTE Please contact your local distributor if the items received are not the same as the one listed above.

2 INSTALLATION INSTRUCTIONS

Please proceed as follows

1. Please use the appropriate tool to remove the ❶ radiator cover, leak the coolant and loosen the ❷ fixing screw X4, water pipe and the collar to remove the original radiator.
2. Use the appropriate tool to attach the radiator to the body lock ❷ fixing screw X4.
3. Add coolant to the tank until the coolant emerges from the air release bolt holes.
4. Use the appropriate tool to remove the air release bolt until the cooling system has no air and lock it.
5. Use a suitable tool to attach the ❶ radiator cover to the car.

⚠WARNING! Be sure to wait until the engine has cooled before opening the tank cover to avoid high temperature and high pressure steam burns.

⚠WARNING! When installing, be sure to add coolant to the radiator to avoid dissipating heat.
